

PWR08

The PWR08 is the portable speaker that combines power with finesse. With its powerful double woofers and light show it stimulates all the senses, even outdoors! You can take it with you wherever you go – that's what the solid handle is for – and use it anywhere, with or without a tripod. Play music via Bluetooth or connect a microphone. You will have the attention of your audience even before you can say 'test'. And as if that is not enough, you can establish a wireless connection between two of the PWR08. Mind-blowing fun!

No party is complete without PWR08!
