

MDC6.2

The MDC6.2 in-ceiling speaker has been developed with a focus on optimal sound quality, solid construction and maximum durability.

The in-ceiling speaker has a mica-reinforced polypropylene cone for extra strength, minimal distortion and consistent sound under all conditions.

The aluminium grille provides a modern look and offers strength and excellent protection against corrosion.

Thanks to its robust materials, the MDC6.2 is resistant to moisture, salt and temperature fluctuations – perfect for indoor and outdoor use, from coastal areas to wellness rooms.

Water, weather and wind resistant. MDC6.2 won't let you down.

COLOURS white / black

TECHNICAL SPECIFICATIONS

range	<40m ²
system	voice coil
woofer	5,25" polypropylene mica
tweeter	0,5" PEI neodymium dome
amp power	10 - 50W (recommended)
sensitivity	89dB +- 2dB 1 W/1 M
impedance	8Ω
frequency range	102Hz - 20kHz
dimensions cut-out (Ø)	112mm
dimensions (Ø x d)	152 x 48mm
weight / piece	0,46kg
composition	ABS / aluminium
colour	white / black
waterproof	IP66
frost-proof	yes
marine	yes
temperature range	-20°C – 105°C
