

## MDC64.2

The MDC64.2 in-ceiling speaker has been developed with a focus on optimal sound quality, solid construction and maximum durability.

The in-ceiling speaker has a mica-reinforced polypropylene cone for extra strength, minimal distortion and consistent sound under all conditions.

The aluminium grille provides a modern look and offers strength and excellent protection against corrosion.

Thanks to its robust materials, the MDC64.2 is resistant to moisture, salt and temperature fluctuations – perfect for indoor and outdoor use, from coastal areas to wellness rooms.

*Hot or cold, the MDC64.2 remains unfazed.*

**COLOURS** white / black

### TECHNICAL SPECIFICATIONS

range	<50m <sup>2</sup>
system	voice coil
woofer	6,5" polypropylene carbon
tweeter	0,5" PEI neodymium dome
amp power	10 - 100W (recommended)
sensitivity	91dB +- 2dB 1 W/1 M
impedance	8Ω
frequency range	102Hz - 20kHz
dimensions cut-out (Ø)	139mm
dimensions (Ø x d)	190 x 66mm
weight / piece	0,63kg
composition	ABS / aluminium
colour	white / black
waterproof	IP66
frost-proof	yes
marine	yes
temperature range	-20°C – 105°C
